Art for the Thinking Person

By Mendoza-Garrastazu

What does this art Collection Offer

It offers , a physical representation of philosophical concepts and topics. It gives the representation of concepts such as..... “Reality” , “Freedom”, “Determinism”, “Hypocrisy” , “Thinking” expressed in simple, elegant and beautiful terms .

What is Special, or Unique about it

1.- **What is unique ?** the topic of natural representation of pure philosophy, is at best rare to find, yet in demand by intellectuals and professionals.

What is special ? The artist has created a unique and understandable, simple and precise graphical representation of philosophical concepts and topics, which are easily understood.

2.- The author takes the literal accepted definition of the concepts and based on it, gives it a corresponding representation.

3.- He is able to explain complex subjects , using simple geometry, Creating a beautify work of art, that is esthetically pleasant and elegant.

4.- It is an art that teaches philosophy. That motivates you when your see it , it give you a complete lecture at a simple glance.

The Definition of Reality

**The Beauty of Explaining
Complex Subjects, in Simple
Terms, using only geometry**

Art for the Thinking Person

For whom this Art is intended, Who is the audience

It is intended for the Intellectually inclined , for professionals, executives, professors, associations, companies & universities, artists.

It is intended for those who understands and appreciate the importance that philosophical concepts have in our day to day life.

An Art that make you think, analyze, and conclude on specific philosophical concepts and topics

An art that make you discover the representation of concepts that did not have a physical form before, Like **"Reality"**, **"Determinism"**, etc.

Development Goals

When Mendoza-Garrastazu developed this art collection he set as a goal that the works of Arts should meet 4 objectives.

Objective No1 - To bring to light a philosophical concept, that did not have a physical representations.

Objective No2 .- The representation had to be simple, using only geometrical figures, and understandable in its expression to everyone

How we Think

*The Beauty of Explaining
Complex Subjects, in Simple
Terms, using only geometry*

Objective No 3 .- It had to be based on the definition of the term, to reflect in the most accurate way possible the specific meaning of the concept.

Objective No 4 .- It had to be beautiful, pleasing , and simple in communicating the concept.

We hope you enjoy these collections.

Thank you

The Definition of Determinism

*The Beauty of Explaining
Complex Subjects, in Simple
Terms, using only geometry*

10.- Buddha

11.- Buddha II

12.- Confucius

13.- Voltaire

14.- Anger

Why the use of Rows in the quotations ?

In life we use these quotations, to help us
Conquer and advance, to help us move forward.

That is what a row does for us.

We use the ores to move forward ,
we grab them and push,

It is our own strengths that propels us,

Without the ores in the lake or at sea,
We can not establish our course, we need to push our self

Let it be,
for what it is,

It does not matter
what it is .

It is what it is,
and that is it .

Feel it.
Live it
Enjoy it

For what you think it is

Mendoza-Garrastazu

About the author

Born and raised in Havana, Cuba, in 1952, in a middle class family, of professionals and artists.

Graduated as a Doctor in Economic Sciences in 1977, from the University of Havana, Cuba, emigrate to the USA, in 1981, establishing himself in Miami, FL.

In 1990 develop and implemented Crown Medical Centers, converting these centers into the largest medical franchise centers of his class, having had centers in New York, New Jersey, Chicago, Houston, Orlando , Miami, and Puerto Rico then he sold his franchise system in 1997 except for Miami ,

From this point on he turned his attention to the development of CopaVin a Medical Training center, for Doctors and Nurses dedicated entirely to Varicose Veins Treatment , writing technical medical manuals, protocol and procedures, engaged in lectures and conferences on the management and control aspect of independent medical centers.

With the success he had after many years of hard work, he used the extra time to concentrate in his art work and finish a long time project commenced many years before around the 1970's when he was a student at the University of Havana.

The art project consisted in the graphical representation of philosophical concepts, the idea was to bring to light multidimensional concepts, never seen before, embarking in a discovery trip of the mind, giving form to concepts, expressing content in the universal language of plastic arts.

Years later in 2014 he was able to finish the Philosophical collection, consisting of more than 100 Works of Art all related to the interpretation of Philosophical Concepts.

Today he lives in the Florida Key, and continues to add more pieces to this collection, while also working as a Management Consultant and offering training Conferences to Medical Doctors for Varicose Veins Clinics.
