Why the use of Rows in the quotations ?

In life we use these quotations, to help us
Conquer and advance, to help us move forward.

That is what a row does for us.

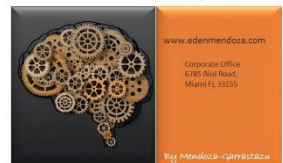

We use the ores to move forward ,
we grab them and push,

It is our own strengths that propels us,

Without the ores in the lake or at sea,
We can not establish our course, we need to push our self

About the author

Born and raised in Havana, Cuba, in 1952, in a middle class family, of professionals and artists.

Graduated as a Doctor in Economic Sciences in 1977, from the University of Havana, Cuba, emigrate to the USA, in 1981, establishing himself in Miami, FL.

In 1990 develop and implemented Crown Medical Centers, converting these centers into the largest medical franchise centers of his class, having had centers in New York, New Jersey, Chicago, Houston, Orlando , Miami, and Puerto Rico then he sold his franchise system in 1997 except for Miami ,

From this point on he turned his attention to the development of CopaVin a Medical Training center, for Doctors and Nurses dedicated entirely to Varicose Veins Treatment , writing technical medical manuals, protocol and procedures, engaged in lectures and conferences on the management and control aspect of independent medical centers.

With the success he had after many years of hard work, he used the extra time to concentrate in his art work and finish a long time project commenced many years before around the 1970's when he was a student at the University of Havana.

The art project consisted in the graphical representation of philosophical concepts, the idea was to bring to light multidimensional concepts, never seen before, embarking in a discovery trip of the mind, giving form to concepts, expressing content in the universal language of plastic arts.

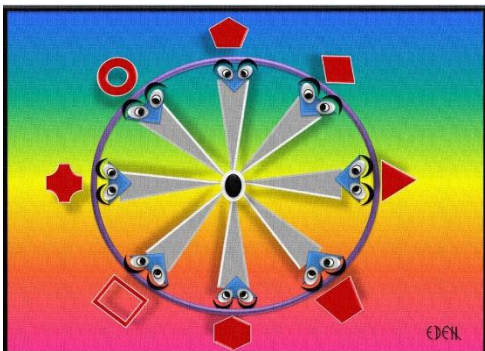

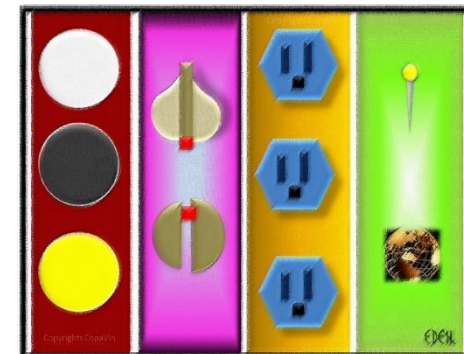

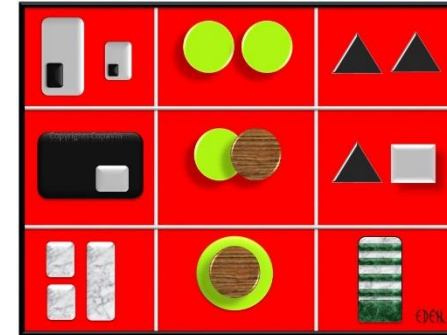

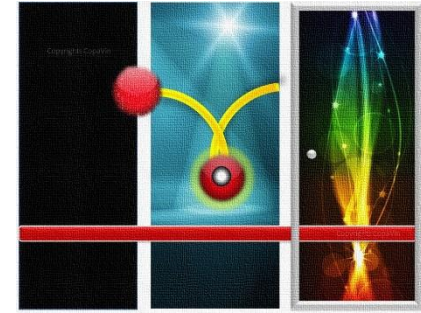

Years later in 2014 he was able to finish the Philosophical collection, consisting of more than 100 Works of Art all related to the interpretation of Philosophical Concepts.

Today he lives in the Florida Key, and continues to add more pieces to this collection, while also working as a Management Consultant and offering training Conferences to Medical Doctors for Varicose Veins Clinics.
